Testimony:

This is another deceitful act on the part of politicians in this state. First, you're gonna use taxpayer money until taxpayers complained. Then, you propose a plan that doesn't include taxpayer money. Now that construction is about to start, you present a bill that says "We now need taxpayer money to help pay for the project". Hartford does NOT NEED a Baseball Stadium for a minor league team. A team that will only generate seasonal revenue and will not be of any value to most of the residents and taxpayers of the city of Hartford. This bill needs to be defeated....and if there is anyway to stop this project from proceeding it needs to be implemented, as there are better things to spend millions of dollars on...like infrastructure. I can not believe how bad some of the main thoroughfares in & out of the city are...streets like Wethersfield Ave., Main St., North Main Street, Garden Street, Albany Ave., Farmington Ave., Broad St., New Britain Ave, et a....I urge all of you to OPPOSE this legislation, and oppose any future legislation that may be similar in nature that may be proposed. Thank you
